Next Generation User & Device Protection for your Organisation

Pensieve Cyber Security Services by Tierney's is a threat hunting, monitoring, and response solution, designed from our years of expertise, and with our best in breed security partners, to monitor our client's 24/7. Pensieve's complex layers of advanced protection will help reduce the risk of modern-day cyber threats, through sophisticated technology and processes, to give your organisation the peace of mind it deserves.

Main Benefits experienced by our customers

- Pensieve proactively ensures, rapid and efficient responses to incidents.
- Next Generation protection for your organisation.
- Added layers of protection that search hidden threats and "quiet" indicators of compromise, that other tools miss.
- Monthly security checkup and Secure Score Reporting.
- Ensure your Microsoft Identity Secure Score is above 65%. **
- Regular proactive scanning, will discover infections before serious harm occurs.
- Further security recommendations may be highlighted for your organisation.
- Best in breed, off-site back-up solutions
- Security Awareness Training

** Only available on Microsoft 365 tenants
